Welcome!

I'm Paolo Ciccone and I love creating portraits of people.

What's most important, I know how to find everybody's special beauty and make it shine in a portrait that will be a treasure in your family forever.

When you proudly show your family portraits on your walls, you don't just surround yourself with your loved ones, you create a legacy that will be with your family forever and you do it with great works of art.

What could be better or more precious?

What's most important is that I can make you feel at ease, confident, and beautiful.

Give me a call to start your great portrait experience.
